Can you resend the document with your changes?
Thanks
Thuy

Thuy, this looks great! I made some minor adjustments (just went ahead and did it in the file – I hope that was ok?). Could you please send this back to the Alex email to confirm (and copy me, goodis, and messina), and also to note in writing a couple of things:

-

-

Ex. 5 Deliberative Process (DP)

-

-

Hope this is helpful! Thanks, Thuy.

Please see attached
I think I covered everything except comment # 7. That's the only sample they sent us
Thuy

Here's one more question. Leaving it to all of you to conclude getting this posted after consulting with Charlotte and Nancy Grantham. Also make sure Madeline Beale looks at it from a Risk Comms standpoint.

One more clarification related to #5,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Thanks everyone! I'll be looking at your great work from my post-EPA perch!

All helpful input. I am sending to the program now. I am not sure we will have staff to work on this Tuesday given the DC holiday, but we will try. Otherwise we will leave it with the team to post the data later in the week. I don't believe anyone will be looking for it tomorrow given the inaugural events.

I am confident Charlotte, Nancy and Allison can see the posting over the finish line.

Thank you all.

Allison,

Thank you for sharing. Charlotte and I were just chatting about this topic, so I've CC'd her and Alex here, so we're all on the same chain. I've reviewed the results and here are my reactions/questions:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

Ex. 5 Deliberative Process (DP)

I might be missing something, but those are the initial thoughts. If time allows, it might be helpful to have Madeline take a look at this for risk comms input. If not, I think answering some of these questions above may help provide clarity to the states and other stakeholders.

Thank you,

Taylor Meredith

Heads up: Alex will be sending a note to Taylor, etc that we will be posting the attachment to <https://www.epa.gov/pesticides/pfas-packaging> later today. It has cleared OECA and OGC review. -Allison
